The **World Series** is the annual post-season championship series between the two best teams from the North American professional baseball divisions, the American League and the National League. The best of seven series occurs at the end of October, two weeks after the division title series.The Fall ClassicTraditionally, the crowning of a new champ October's end marks the closing of baseball season, which is why some dubbed the World Series, the Fall Classic. The World Series as we know it today had its first official game in 1903, when the Boston Americans triumphed over the Pittsburgh Pirates. Since 1903, the series has been played 114 times with the National League winning 48 games and the American League with 66 wins. The New York Yankees have won more World Series titles than any other team with 27 victories. The Yankees also hold the record for most World Series appearances with 40. Seven teams have never won a World Series, and two teams, The Seattle Mariners and the Washington Nationals, have never played in the storied series. The 2019 World Series is tentatively scheduled for October 22. Fox television stations are the official carriers of the series, but viewers can also tune in online and by radio. Official start time is roughly between 8 and 8:30 pm ET.Why is it Called The World Series?One enduring question about the World Series is if it only occurs among North American teams, why is it called the WORLD series? "You ...have to look back at the way most people in the United States saw the world in 1903. The Gilded Age was giving way to an era when the United States would dominate....And surely no one could beat the U.S. at its own game," according to baseball writer, Joseph Reaves. It was also a marketing technique to get more people to attend games. Today, baseball has become more international with players from countries outside North America counted among its biggest stars. A Great GameWhat makes a great World Series? For one, the number of memorable events make a great World Series according to MLB.com writer, Joe Posnanski. For Joe and others, one of the greatest World Series was the 1975 series between Cincinnati Reds and the Boston Red Sox with five one-run games and the explosive end to Game Six with a line drive by Carlton Fisk. Or the time in 1973 when Reggie Jackson homered in game seven to lead the Oakland Athletics to victory over the New York Mets on his way to being famously nicknamed Mr. October. Or the 2016 series where the Chicago Cubs rallied back from a 3-1 deficit to crush the Cleveland Indians. Interestingly, some say the outcome of this nailbiter was decided when a rain delay hurt the Indians pitcher to give the Cubs its first World Series victory in 108 years.World Series ControversyThe World Series has had its share of controversy, however. In 1919 members of the Chicago White Sox agreed to throw the game leading to eight players being banned for life. In 1994 baseball players went on strike and the World Series was not played. For some, the strike and cancelling of the World Series forever tarnished baseball's reputation.Losing PopularityTCable, streaming, and social media has given the World Series some serious competition. The series reached peak viewership in the 1970s with its highest share of the viewer market, 59 percent, occurring in 1971. In 2012, the series saw its lowest ratings with a 12 percent share. Some say the game is too long and slow. Others say it's just fine. In 2017, 18 million people tuned in. More than in some recent years. The World Series may have to compete for more viewers, yet it still remains one of unique times where people come together to share a single event and cheer their favorite team. MORE FROM QUESTIONSANSWERED.NET Seventeen-year-old Cassie is a natural at reading ... in: Books, The Naturals, Novellas Edit Looks like there are no posts about this book. Series of crime fiction novels written by Jennifer Lynn Barnes This article is about the book series by Jennifer Lynn Barnes. For the 1952 novel, see The Natural. For other uses, see Natural (disambiguation). "Twelve (novella)" redirects here. For the novel by Nick McDonell, see Twelve (novel). The NaturalsBook covers from the four main novels.AuthorJennifer Lynn BarnesCover artistAbby KuperstockCountryUnited StatesLanguageEnglishGenreYoung adult fictionCrime fictionMysteryRomancePublisherHachette BooksPublishedNovember 5, 2013 - November 7, 2017Media typePrintNo. of books5WebsiteOfficial website The Naturals is a series of young adult novels by Jennifer Lynn Barnes. Beginning with 2013's initial novel of the same name, the series follows the life of Cassie Hobbes, a 17-year-old girl who is contacted by the FBI to join a special program. The initial book was followed by Killer Instinct, published in 2014. The third book, All In, came out in 2015, and the fourth and final book, Bad Blood, was published in 2016. A novella, titled Twelve, was published in 2017. Books No. Title Date Pages ISBN 1The NaturalsNovember 5, 2013320ISBN 978-1423-16823-2 2Killer InstinctNovember 4, 2014384ISBN 978-1-423-16832-4 3All InNovember 3, 2015384ISBN 978-1-484-71643-4 4Bad BloodNovember 1, 2016384ISBN 978-1-484-75854-9 5TwelveNovember 7, 2017100ISBN 978-1-368-02130-2 Reception Writing for the State Journal-Register, Alex Winters praised the series stating that, "If you enjoy suspenseful crime thrillers and whodunnits with a dash of teen melodrama, then this is the book series for you." [1] The New York Times best-selling author Ally Carter stated in an interview that the series was "a must-read for anyone who likes books about real teens who have no superpowers and yet aren't quite typical either." [2] Reviewing the first novel, Kirkus Reviews stated: "This savvy thriller grabs readers right away. Cassie's outsider feelings are convincing and give credence to her actions throughout the story. There is enough violence, grisly description, and plot surprises to keep crime-show devotees reading. Unanswered questions will have those readers on tenterhooks for the next in the series.[3] Also reviewing the first novel, Publishers Weekly lauded the writing by Jennifer Lynn Barnes, stating that "Barnes shows every card at just the right moment, catching readers off-guard at the final reveal. It's a stay-up-late-to-finish kind of book, and it doesn't disappoint." [4] Kristi Elle Jemtegaard, from Booklist, wrote in her review for the initial book that "Nevertheless, teens looking for a fast-paced heart-stopper may find the pace slow at first, but then the thrills and chills kick in—only to leave listeners hanging, as this is the initial volume of a projected series." The Mentalist meets Heist Society in this exhilarating teen crime thriller.Seventeen-year-old Cassie is a natural at reading people. Piecing together the tiniest details, she can tell you who you are and what you want. But, it's not a skill that she's ever taken seriously. That is, until the FBI come knocking; they've begun a classified program that uses exceptional teenagers to crack infamous cold cases, and they need Cassie.What Cassie doesn't realize is that there's more at risk than a few unsolved homicides-especially when she's sent to live with a group of teens whose gifts are as unusual as her own. Soon, it becomes clear that no one in the Naturals program is what they seem. And when a new killer strikes, danger looms close. Caught in a lethal game of cat and mouse with a killer, the Naturals are going to have to use all of their gifts just to survive.Think The Mentalist meets Pretty Little Liars-Jennifer Lynn Barnes's The Naturals is a gripping psychological thriller with killer appeal, a to-die-for romance, and the bones of a gritty and compelling new series.Praise for The Naturals"The Naturals is Criminal Minds for the YA world, and I loved every page." -New York Times best-selling author Ally Carter\* "[A] tightly paced suspense novel that will keep readers up until the wee hours to finish." -VOYA (starred review)"This savvy thriller grabs readers right away." -Kirkus Reviews"It's a stay-up-late-to-finish kind of book, and it doesn't disappoint." -Publishers Weekly"In this high-adrenaline series opener...even a psychic won't anticipate all the twists and turns." -Booklist Accolades YALSA Best Books for Young Adults, 2014 YALSA Quick Picks for Reluctant Young Readers, 2014 "The Naturals is Criminal Minds for the YA world, and I loved every page."— New York Times best-selling author Ally Carter\* "[A] tightly paced suspense novel that will keep readers up until the wee hours to finish."— VOYA (starred review)"This savvy thriller grabs readers right away."— Kirkus Reviews"It's a stay-up-late-to-finish kind of book, and it doesn't disappoint."— Publishers Weekly "In this high-adrenaline series opener . . . even a psychic won't anticipate all the twists and turns."— Booklist From the Publisher 09/30/2013In an intense CSI-type thriller, Barnes (Nobody) lets readers inside the mind of 17-year-old Cassie Hobbes, a "Natural" profiler with the uncanny ability to piece together an individual's motives, backgrounds, and patterns of behavior. After her mother's gruesome abduction, and with her father overseas, Cassie is recruited for a special FBI program for teens like her to help solve cold cases. Cassie immediately realizes that being a Natural may be more than she bargained for, and her fellow gifted teens take getting used to, including Michael, an emotional expert who seems fascinated with Cassie's, and Dean, who just looks pissed off—mostly at her. Barnes is in her wheelhouse with this story of keenly powered teens and covert ops, and she provides an enticing inside look at the world of crime-solving through Cassie's hyperaware eyes. Cassie's pursuit by an unknown serial killer keeps things tense, as do creepy narratives from the killer. Barnes shows every card at just the right moment, catching readers off-guard at the final reveal. It's a stay-up-late-to-finish kind of book, and it doesn't disappoint. Ages 12–up. Agent: Elizabeth Harding, Curtis Brown. (Nov.) Publishers Weekly 12/01/2013Gr 9 Up—The FBI recruits Cassie Hobbes, 17, to be one of the Naturals, a group of teens with innate crime-solving abilities. Cassie learned how to read people from her mother, a performing psychic who disappeared five years ago and is presumed to be dead. With her father overseas in the military and her large extended Italian family in Colorado, Cassie sets out on her own to Washington, DC, to hone her skills under the tutelage of Special Agent Lacey Locke. The four other teens living in her house possess extraordinary skills as well. Mysterious Dean can read people on sight, handsome and mischievous Michael can understand people's emotions, intense and brainy Sloane can quickly analyze facts and numbers, and catty and pushy Lia can instantly detect a lie. Cassie begins her training with cold cases but is quickly swept into an ongoing investigation. Despite the best efforts of their mentors to keep them off the case, the investigation, which is personal for Cassie, requires the talents of all the teens to solve. This fast-paced series starter introduces the characters and background without losing the intensity of the plot. The murder scenes have just enough blood and gore for forensics fans. The love triangle among Cassie, Dean, and Michael will keep romance readers entertained, and the FBI cases will lure in mystery enthusiasts. The ending is resolved with just enough left open for readers to look forward to the next installment.—Lynn Rashid, Marriotts Ridge High School, Marriottsville, MD School Library Journal 2013-10-01A teen with a special ability and a tragic past is recruited by the FBI to join a group of young profilers. Seventeen-year-old Cassie Hobbes has lived with her paternal grandmother since her mother's presumed murder five years ago. Lorelai Hobbes was never found, but the horrific scene at the site of her disappearance pointed toward her death. Cassie has never quite fit in with her family, haunted by memories and her uncanny ability to "read" people. Her mother had helped develop that skill so she could be helpful in Lorelai's "profession" as a psychic. When Cassie is approached by the FBI to join a special unit of young profilers, she sees an opportunity to do some good. Cassie moves into an unusual group home in Quantico, Va., with other teens who have gifts useful to the FBI. In addition to her training, Cassie has to navigate the group dynamic, as each of her cohorts has a back story. A series of killings like Lorelai's in nearby Washington, D.C., makes it impossible for Cassie to remain on the sidelines despite the efforts of her superiors. This savvy thriller grabs readers right away. Cassie's outsider feelings are convincing and give credence to her actions throughout the story. There is enough violence, grisly description and plot surprises to keep crime-show devotees reading. Unanswered questions will have those readers on tenterhooks for the next in the series.
